

Cardiac catheterization is a diagnostic or therapeutic procedure in which a catheter is introduced into a large vein or artery, usually of an arm or leg, and threaded through the circulatory system to the heart. A single procedure lasts from the time the catheter is inserted until the time that the catheter is completely withdrawn from the patient. With regard to cardiac catheterization services the term “laboratory” (lab) means each dedicated room within a fixed-site facility which is individually equipped and staffed for the purposes of performing cardiac catheterizations.

To determine the number of cardiac catheterizations performed, each administrative claims record was examined to determine if it contained one of the following procedure codes. Inpatient Hospital Discharge records were examined for ICD-9 Procedure codes as published in the 2011 Professional Edition ICD-9-CM manual for Hospitals Volume 3, while Outpatient Services Records were examined for CPT Procedure codes as published in the 2011 Professional Edition Current Procedural Terminology manual.

Diagnostic Catheterization		Therapeutic Catheterization	
ICD-9 Procedure Code	CPT/HCPCS Procedure Code	ICD-9 Procedure Code	CPT/HCPCS Procedure Code
0050 - 0051	33206 - 33208	0045 - 0048	0234T – 0238T

# **2012 ANNUAL ADMINISTRATIVE CLAIMS DATA REPORT – Cardiac Catheterization**

## **INTRODUCTION**

Thank you for your interest in the **2012 Annual Administrative Claims Data Report – Cardiac Catheterization**. This report covers the utilization of Cardiac Catheterization Labs by licensed Kentucky hospitals for the calendar year January 1, through December 31, 2012. The administrative claims data submitted by hospitals and ambulatory facilities as required by 900 KAR 7:030 – Data Reporting by Health Care Providers was used to produce the utilization information in this report. This year the administrative claims report is being broken out into separate report for each section of the previous report. This year the Administrative Claims Report is broken into individual reports to expand the analysis of each are of the claims data. An asterisk (\*) has replaced any cells with five or fewer cases.

The Kentucky Annual Administrative Claims Data Report – Cardiac Catheterization uses the administrative claims data to determine utilization. The Certificate of Need Inventory of Health Facilities and Services provides information about the number of cardiac catheterization labs that have received CON approval. This list may be viewed on our web site at: <http://chfs.ky.gov/ohp/con/>.

The report is divided into 3 sections:

- ♦ **Section I – Maps of the locations of Diagnostic Cardiac Catheterization Labs and Therapeutic Cardiac Catheterization Labs in Kentucky**
- ♦ **Section II – Cardiac Catheterization Utilization**
- ♦ **Section III – Trends Over Time**

The source of all data used to produce this report is the administrative claims data submitted pursuant to 900 KAR 7:030 – Data Reporting by Health Care Providers.

This is a revised version of the Report, originally published in June 2013. Several facilities submitted missing and corrected administrative claims data for 2012, in the beginning of 2014. This report reflects both those additions/corrections and a new section showing trends.

Cardiac catheterization is a diagnostic or therapeutic procedure in which a catheter is introduced into a large vein or artery, usually of an arm or leg, and threaded through the circulatory system to the heart. A single procedure lasts from the time the catheter is inserted until the time that the catheter is completely withdrawn from the patient. With regard to cardiac catheterization services the term “laboratory” (lab) means each dedicated room within a fixed-site facility which is individually equipped and staffed for the purposes of performing cardiac catheterizations.

To determine the number of cardiac catheterizations performed, each administrative claims record was examined to determine if it contained one of the following procedure codes. Inpatient Hospital Discharge records were examined for ICD-9 Procedure codes as published in the 2011 Professional Edition ICD-9-CM manual for Hospitals Volume 3, while Outpatient Services Records were examined for CPT Procedure codes as published in the 2011 Professional Edition Current Procedural Terminology manual.

Diagnostic Catheterization		Therapeutic Catheterization	
ICD-9 Procedure Code	CPT/HCPCS Procedure Code	ICD-9 Procedure Code	CPT/HCPCS Procedure Code
0050 - 0051	33206 - 33208	0045 - 0048	0234T – 0238T
3721 - 3723	93503	0066	92961
3725 - 3726	93505	1755	92980 - 9282
3780 - 3783	93451 - 93462	3606 - 3607	92984
3785 - 3787	93530 - 93533		92995 - 92998
3794	93619		93650 - 93652
885	93620 - 93622		G0290 – G0291
8850 - 8857	93640 - 93642		
8859	93660		

NOTE: Electrophysiologic testing procedures were counted as “diagnostic” catheterizations.

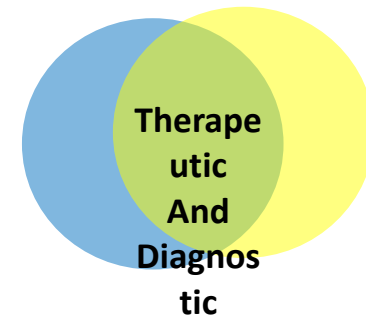

**All Therapeutic:** Includes a count of the number of administrative claims records where the record included at least one Therapeutic Code regardless of the presence of any Diagnostic code(s).

**All Diagnostic:** Includes a count of the number of administrative claims records where the record included at least one Diagnostic Code regardless of the presence of any Therapeutic code(s).

**Therapeutic & Diagnostic:** Includes a count of the number of administrative claims records where the record included at least one Diagnostic code AND at least one Therapeutic code. This count includes the overlap of the previous two groups.

“Pediatric” means the patient age is 17 years or less. “Adult” means the patient age is 18 years or greater.

Questions or comments regarding the data contained in this report should be directed to Allison Lile at (502) 564-9592, ext. 3155, or e-mail: [Allison.Lile@ky.gov](mailto:Allison.Lile@ky.gov).

This report becomes the most recent official data on cardiac catheterization utilization published by the Cabinet for Health Services. For additional copies of this report, please submit a request in writing along with a check in the amount of \$20.00 made payable to the Kentucky State Treasurer to:

Out of State										
	Out of State Total	31	4,566	4,597	28	3,802	3,830	115	13,006	13,121
Statewide		95	18,429	18,524	84	15,208	15,292	407	57,244	57,651

Note: Totals in Table 3 may not match totals in Table 2 because some facilities performed procedures within the range of codes but do not have a cardiac catheterization lab. These procedures are counted in Table 3 by patient origin, but not Table 2, which only includes facilities with CON approved cardiac cath labs.

## *SECTION III*

### *Trends of Cardiac Catheterization*
